

# CAPSULE HF6PRO

## CAPSULE HF6PRO

**Compact, light weight, large capacity, pull along capsule!**

With a full range of professional accessories on board, the HF6 Pro Capsule will take care of all your vacuuming needs.

### FEATURES

- Compact and light weight
- High-efficiency 750W Rotofil motor
- Integrated on-board accessories
- Six stage filtration including Hepa as standard
- 14lt filter bag
- Integrated powerful blowing function
- Optional quick connect electrified hose and wand for power head use
- Energy consumption: class "A"

## ALL TOOLS ON BOARD

HF6 Pro Capsule has storage area for crevice nozzle and dusting brush making it easy to have all the right accessories when you need them. It is equipped with full bag indicator light and motor thermal protector.

## FULL HEPA MEDIC FILTRATION

HF6 Pro Capsule has a six stage filtration system including Hepa filtration as standard. Each packet of 14lt dust bags comes with a new Hepa filter.

## CORDLESS POWER HEAD

Takes optional full electronic kit power head including quick connection electrified hose and telescopic wand without any external leads. Perfect for mattress vacuuming and power head vacuuming attached to a pull along machine.

## LOW CENTER OF GRAVITY

With motor located in the center and hose connection close to the floor the capsule moves around effortlessly.
